

TEAM MEETING REPORT 3: CLEARPOLICY TEAM

COMP 496: SENIOR DESIGN II
FALL 2026

1 DETAILS

Date: October 8, 2026

Members Present: TJ, Anthony, Amon, Prema

2 AGENDA ITEMS

- 1 Plan the presentation and live demo.
- 2 Review how the classifier and rule engine work together.
- 3 Check the instructions for running the app on Windows.

3 ACCOMPLISHMENTS

We finished a six-slide presentation and speaker script for our class demo. Anthony will open and close, Amon will explain the system, and TJ will run the live demo. We also updated the README with steps for starting the backend and interface on Windows.

4 DECISIONS

- 1 Use the fictional sample policy for the live demo.
- 2 Explain that classifier tags are suggestions and do not change the Trust Score.
- 3 Make clear that the prototype is educational and does not determine legal compliance.
